## INTRODUCTION

Founded in 1904, the *Fédération Internationale de l'Automobile (FIA)* has a mandate to govern the practice of motor sport worldwide by the authorities of 141 nations. Through the *International Karting Commission (CIK-FIA)*, it awards the only official titles of *FIA Karting World and European Champion* at the end of the most prestigious Events, which are organised in collaboration with its Promoter *RGMMC Group* and the *National Sporting Authorities (ASN)* concerned.

In addition to motor sport, the FIA is also concerned with automobile mobility and tourism, with safety as a priority.

The purpose of this dossier is to present the Karting discipline as well as the various FIA Karting Championships, Cups and Trophies for the 2021 season.

# KARTING

*Invented by the Americans in the 1950s, Karting quickly became a great success in Europe and today is a fully-fledged motorsport discipline.*

**K**arting is a great school of life for young people and the best way to learn about driving and racing. The best route for the future car Champions, Karting is also practiced by enthusiasts who devote all their energy to it. The FIA Karting Championships are open to drivers from the age of 12, with no upper age limit.

Although the kart is basically a machine of simple design, the high standard of Event makes it a very high level sport where ultra-competent professional teams compete against each other.

The spectacle provided by Karting Events has an intensity rarely seen in motor sport. The closeness of the track, a succession of races throughout the weekend, constant suspense and the beauty of the struggle for victory make it an exciting discipline to experience for both specialists and the general public.

In addition, karting is particularly suitable for live TV viewing and sharing on social networks.

# KARTING DRIVERS BEFORE BECOMING F1 CHAMPIONS
