INTRODUCTION

Founded in 1904, the Fédération Internationale de l'Automobile (FIA) has a mandate to govern the practice of motor sport worldwide by the authorities of 144 nations. Through the International Karting Commission (CIK-FIA), it awards the only official titles of FIA Karting World and European Champion at the end of the most prestigious Competitions, which are organised in collaboration with its Promoter RGMCMC Group and the National Sporting Authorities (ASN) concerned.

In addition to motor sport, the FIA is also concerned with automobile mobility and tourism, with safety as a priority.

The purpose of this dossier is to present the Karting discipline as well as the various FIA Karting Championships, Cups and Trophies for the 2022 season.

KARTING

Invented by the Americans in the 1950s, Karting quickly became a great success in Europe and today is a fully-fledged motorsport discipline.

Karting is a great school of life for young people and the best way to learn about driving and racing. The best route for the future car Champions, Karting is also practiced by enthusiasts who devote all their energy to it. The FIA Karting Championships are open to drivers from the age of 12, with no upper age limit.

Although the kart is basically a machine of simple design, the high standard of Competition makes it a very high level sport where ultra-competent professional teams confront each other.

The spectacle provided by Karting events has an intensity rarely seen in motorsport. The closeness of the track, a succession of races throughout the weekend, constant suspense and the beauty of the struggle for victory make it an exciting discipline to experience for both specialists and the general public.

In addition, karting is particularly suitable for live TV viewing and sharing on social networks.
