INTRODUCTION

Founded in 1904, the Fédération Internationale de l'Automobile (FIA) is the global governing body for motorsport and brings together 149 member clubs across five continents. Through the Commission Internationale de Karting (CIK-FIA), the FIA awards the only official Karting World and European Champion titles, with events organised with service provider RGMMC Group and the respective National Sporting Authorities (ASNs).

The FIA celebrated its 120th anniversary in 2024 and in addition to its role across motorsport, the FIA is also committed to automotive mobility and tourism, with safety and fairness central priorities for the federation.

This dossier presents the discipline of karting and the various FIA Karting Championships, Cups and Trophies for the 2026 season.

(1956 - 2026)
70 YEARS OF PASSION AND EXCELLENCE

From Californian Origins to Global Recognition

2026 marks a historic anniversary: the 70th anniversary of the invention of karting. In August 1956, in Glendale, California, the very first kart was created by Art Ingels and Lou Borelli. Built from steel tubes and powered by a 2.5 hp lawnmower engine, their prototype “Caretta” made its first public appearance in Pomona in September of the same year. This invention sparked immediate enthusiasm, crossed the Atlantic, and has established itself as a discipline in its own right within world motorsport.

The School of Competition

While the 1956 kart was rudimentary, contemporary competitions make karting a very high-level sport where ultra-competitive professional teams compete. A true education in competition and life, karting is the best way to learn driving and race craft. FIA Karting Championships are open from the age of 12, with no upper age limit.

A Spectacle of Rare Intensity

Seventy years on, karting events offer intensity rarely matched in motorsport. Proximity to the track, successive races throughout the weekend, constant suspense and quality battles make it exciting for enthusiasts and the general public alike. Its dynamic format suits live TV broadcasting and social media perfectly.

A Heritage in Constant Evolution

While the FIA Karting World Championship celebrated its 60th year in 2024, this 70th anniversary in 2026 recalls the extraordinary journey from Californian parking lots. More than ever, karting remains the beating heart and indispensable foundation of modern motorsport.

KARTING DRIVERS WHO BECAME FORMULA 1 DRIVERS

Throughout the history of motorsport many of the sports stars learnt their craft in karting before reaching Formula 1 or other disciplines.

WHO WILL BE NEXT?

THE CIK-FIA

Created in 1962, the Commission Internationale de Karting is an integral part of the FIA, and is charged with its fairness and sporting integrity, promoting and growing the discipline worldwide, developing the sporting and technical regulations, and establishing the international calendar.

Its main missions: ensuring unity in karting activities, promoting and developing the discipline worldwide, drawing up the sporting and technical regulations, and establishing the international competition calendar.

CIK-FIA President: ***Akbar Ebrahim (IND)***
CIK-FIA Vice-President: ***John Ryan (GBR)***

FOREWORD FROM THE PRESIDENT

Akbar Ebrahim, President of the CIK-FIA

In 2024 we launched the FIA Global Karting Plan, our initiative to make karting more affordable, accessible and inclusive. Now in its second year, we have already seen the results of our work to support rising talent and nurture the future of our sport.

Under the leadership of H.E. Mohammed Ben Sulayem, President of the FIA, this plan is working to strengthen the foundations of Karting, recognising its vital role at the base of the motor sport pyramid. Last year alone, a total of 1,217 driver entries were recorded across the season, a 25% increase from 2024, with 86 nationalities represented, reflecting a more global and accessible sport.

A cornerstone of the Global Karting Plan, last year we launched FIA Karting Arrive and Drive. Our flagship event, the FIA Karting Arrive and Drive World Cup featured 107 competitors from 50 countries, including 15 women. This more affordable and inclusive form of international karting redefined accessible karting and is a statement of intent in our ongoing mission to broaden the pathways and increase the opportunities available to participate in motor sport.

Towards the end of 2025 we held the first FIA Karting Shootout in Valencia. Welcoming the winners and champions from across our FIA Karting categories, the Shootout was a comprehensive assessment programme where we examined the drivers' racing skill as well as their fitness, aptitude and potential to grow as racing drivers, with transformational prizes to propel their careers on offer.

In the Senior category, Yuzuki Sato won the shootout and was awarded €250,000 to race in an FIA-certified Formula 4 championship. The Junior winners, including first-placed Valerio Viapiana, received logistical and financial support for five rounds in 2026, including a grant of €6,000 per race for their team or a free entry into the Continental Arrive & Drive Championship.

These new initiatives complement our FIA Karting World and European Championships, the jewels in the FIA Karting crown and a benchmark for world-class competitive karting. With the continued support of service providers, organisers, manufacturers and teams, FIA Karting continues to grow and support the next generation of champions. The outlook is looking more promising than ever for the coming seasons.

Building on the success of the FIA Academy Trophy, established in 2010 for junior drivers aged 12 to 14, a second edition launched last year for senior drivers aged 14 to 17, with the field expanded to 54 places for this season. Alongside the OK-N World Cup, there is also now the OK-N Junior World Cup for junior drivers.

The 2026 FIA Karting season features an expanded calendar with new Arrive and Drive Continental Championships in Europe, Asia Pacific and South America which act as qualifying Championships for the second edition of the FIA Karting Arrive and Drive World Cup later this year.

This expansion is also accompanied by a revitalised format, incorporating thrilling sprint races to determine the starting grids and maximise track time for each driver. This year we also look forward to some incredible events. The Le Mans circuit will host the KZ World Championship in September, whilst Bahrain will be the venue for the OK and Junior World Championships. We are proud to confirm the renewal of our partnership with Mondokart.com, as well as the appointment of our exclusive suppliers, including OTK Kart Group and Vega. Furthermore, safety has reached a new technical milestone with the mandatory introduction of the Impact Data Recorder (IDR) and Anti-Launch Device across all our championships from this year onwards thanks to the support and collaboration with the FIA Safety Department.

Since its introduction in early 2023, the IKR (International Karting Ranking) has proven its value in assessing the progress of drivers worldwide across a wide range of categories. Since 2024, it has been complemented by a national version, the NKR (National Karting Ranking), whose visibility has been further enhanced in 2025.

I look forward to a safe and successful 2026 season, as we continue to develop our sport on a solid foundation, for a bright future. See you on track soon.

RGMMC, SERVICE PROVIDER FOR THE FIA KARTING CHAMPIONSHIPS

RGMMC Group is the Service Provider for the FIA Karting European and World Championships. Based in Switzerland, the group is renowned for the extensive field experience of owner Roland Geidel, President James Geidel and their long-standing team.

Increasing the audience for karting competitions, attracting new partners, putting in place the means and infrastructure to optimise event management and collaborating closely with ASNs are RGMMC Group's priorities. The Service Provider also develops communication and media coverage by providing live video during Competitions and partnering with Motorsport.tv for worldwide broadcast. The FIA Karting Championships accounts on X, Instagram, Facebook and YouTube unite a large community of enthusiasts throughout the year.

OK-N:
BACK TO BASICS

In 2023, FIA Karting launched a new concept derived from the flagship OK category, with the ambition of broadening its participant base.

Accessibility, Reliability and Performance

The OK-N category enables national championships organised by FIA Member Clubs (ASNs) to utilise a universal category, strengthening grassroots progression towards the top flight of karting.

Technical Specifications

From 15 years of age.
CIK-FIA homologated chassis, rear brake only, hydraulic control.

125cc 2-stroke engine with balance shaft, water-cooled, max 15,000 rpm, power approx. 35 hp, single-type exhaust, 30mm float bowl or 24mm diaphragm carburettor. No gearbox, no clutch, no starter or battery. Decompression valve for push-starting.

Minimum weight: 155 kg driver on board. Tyres: Maxxis MAO “Option”.

OK-N Junior: the Junior Version

A simple, cost-effective solution adapts OK-N for juniors aged 12-14. A 26mm exhaust restrictor differentiates the OK-N Junior from the OK-N, while engine, carburettor and exhaust remain identical. Minimum weight with driver on board: 145 kg.

A COHERENT SPORTING ENVIRONMENT TO GUARANTEE ACCESSIBILITY

The single technical framework governing the OK-N needed to be accompanied by a harmonised sporting vision among all Federations, targeting the FIA Karting OK-N and OK-N Junior World Cups.

FIA Karting recommends ASNs implement a simplified sporting scheme in line with OK-N accessibility values.

The concept has met with great success and many countries now offer the category nationally. Six engine manufacturers offer OK-N engines: IAME, LKE, Modena Engines, Rexon Motors, TM Racing and Vortex.

FIA Karting World Cup - OK-N -

The FIA Karting World Cup – OK-N will take place 8–11 October 2026, Viterbo, Italy.

INTERNATIONAL KARTING RANKING (IKR) COMPUTERISED RESULTS TRACKING SYSTEM

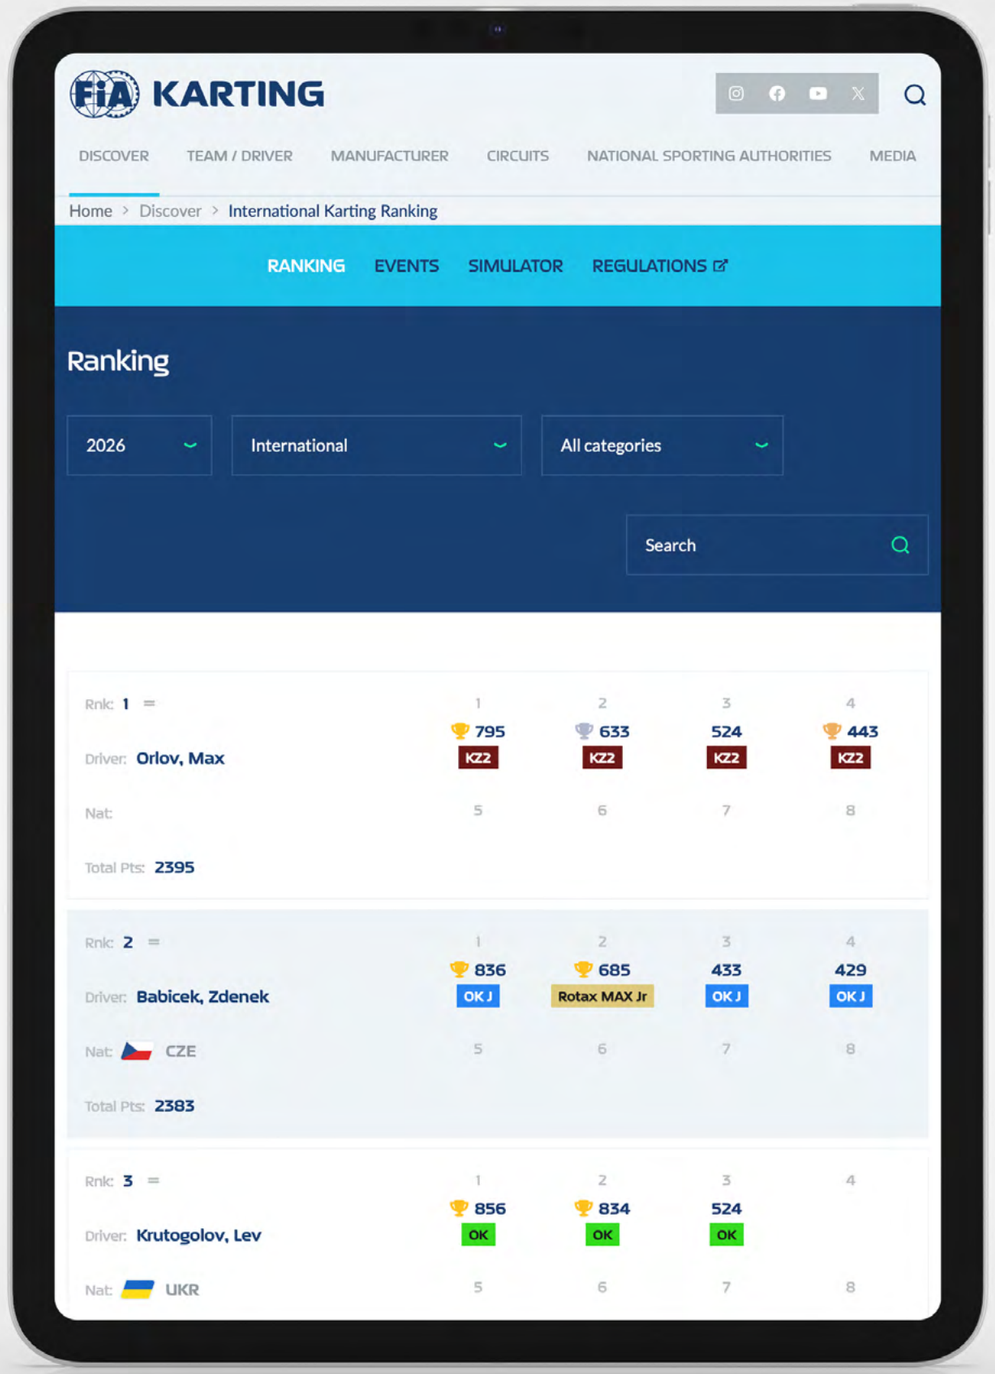

The IKR is a digital ranking system open to all licensed drivers from an FIA Member Club (ASN) participating in karting competitions. Like the ATP tennis ranking, it establishes a global driver ranking plus subrankings by various criteria, aiming to standardise competitive karting worldwide.

The ranking offers an overview of a driver's performance regardless of category, provided they use CIK-FIA homologated equipment. It rewards drivers with a global ranking, special mentions or the honorary "Driver of the Year" title. Multiple variations exist by age group, nationality, Competition type, etc., and its relevance grows over time.

Points are calculated automatically by a logarithmic rule based on event type, final ranking position, and number of competitors. Two weighting coefficients apply depending on equipment and Competition format.

The IKR is updated every Wednesday at 18:00 CET. Access: IKR

The 2025 IKR Driver of the Year trophy was awarded to British driver Noah Baglin, who achieved the best score among nearly 1,300 participants.

THE FIA KARTING SPORTING SEASON

The CIK-FIA organises three FIA Karting World Championships each year as single event competitions, as well as the KZ2 World Cup (relaunched in 2022), the OK-N World Cup, and the OK-N Junior World Cup (created 2025).

Four FIA Karting European Championships are also on the programme, spread over several competitions.

For 17 years, the FIA Karting Academy Trophy has provided a platform for rising karting from around 50 countries on equal-spec equipment. Since 2025, it has two categories: Junior (12-14) and Senior (14-17).

Karting events offer drivers substantial track time across sessions of 10-20 minutes.

Competition Format

- Free Practice from Friday (from Thursday for the first Competition)
- Qualifying Practice on Friday
- Qualifying Heats and Super Heats from Friday to Sunday morning
- Finals on Sunday afternoon, reserved for the top 36 drivers per category

THE - OK - CATEGORY

The OK category, open from 14, represents the pinnacle of direct-drive karting (formerly Formula Super A, Formula A, KF). It features the greatest karting champions and the best young prospects before their move to gearbox karting or single-seaters. The competition is intense between experienced drivers and young rookies.

Technical Specifications

- From 14 years of age
- CIK-FIA homologated chassis
- Rear brake only
- Hydraulic control
- 125cc 2-stroke engine with balance shaft
- Water-cooled
- Maximum speed: 16,000 rpm
- Simplified exhaust valve
- Single-type exhaust
- 24mm butterfly carburettor
- No gearbox
- No clutch
- No starter or battery
- Minimum weight: 150 kg driver on board
- Tyres: Maxxis MAP “Prime”

THE - JUNIOR - CATEGORY

The Junior category is intended for young drivers taking their first step in international karting, having usually previously competed in competitive national level events in full. The standard is extremely high among 12-14 year old drivers who often competing in major teams. The Junior category has long produced great motorsport champions.

Technical Specifications

- From 12 to 14 years of age
- CIK-FIA homologated chassis
- Rear brake only
- Hydraulic control
- 125cc 2-stroke engine with balance shaft
- Water-cooled
- Maximum speed: 14,000 rpm
- No exhaust valve
- Single-type exhaust
- 20mm butterfly carburettor
- No gearbox
- No clutch
- No starter or battery
- Minimum weight: 140 kg driver on board
- Tyres: Maxxis MAO “Option”

THE - KZ - CATEGORY

Beyond its powerful gearbox engine, the KZ category is distinguished by greater chassis freedom, enabling equipment development. It is the domain of factory teams and professional or elite karting drivers.

Technical Specifications

- Open chassis
- Hydraulic brakes on all four wheels
- 125cc 2-stroke engine with 6-speed gearbox
- Liquid cooling
- 30mm float bowl carburettor
- Power: approximately 50 hp
- Minimum weight: 170 kg driver on board
- Tyres: LeCont “Prime”

FIA KARTING WORLD CUP - KZ2 -

Renamed the FIA Karting International Super Cup – KZ2 from 2013 to 2021, the FIA Karting World Cup – KZ2 is the annual competition of the top drivers in the category, competing for victory at a single race.

The FIA Karting World Cup – KZ2 will take place over 17–20 September 2026 in Le Mans, France.

FIA KARTING INTERNATIONAL SUPER CUP
- KZ2 MASTERS -

Launched in 2022, the FIA Karting International Super Cup – KZ2 Masters was created for drivers aged 35 and over. Minimum weight with driver on board: 180 kg vs 175 kg in KZ2.

The FIA Karting International Super Cup – KZ2 Masters will take place 17–20 September 2026, Le Mans, France.

FIA Karting International Super Cup winners - KZ2 Masters

2025	Angelo Lombardo	(ITA)
2024	Anthony Abbasse	(FRA)
2023	Davide Fore	(ITA)
2022	Thomas Letailleur	(FRA)

THE - KZ2 - CATEGORY

The KZ2 category is distinguished by its high performance, powerful gearbox engine at a relatively affordable cost which attracts many talented drivers to this European competition.

Technical Specifications

- CIK-FIA international homologated chassis
- Hydraulic brakes on all four wheels
- 125cc 2-stroke engine with 6-speed gearbox
- Liquid cooling
- 30mm float bowl carburettor
- Power: approximately 50 hp
- Minimum weight: 175 kg driver on board (180 kg in KZ2 Masters)
- Tyres: LeCont “Prime”

FIA KARTING ACADEMY TROPHY
GLOBAL PROGRAMME FOR IDENTIFYING EMERGING GLOBAL TALENT

The FIA Karting Academy Trophy is an international competition designed to detect and develop karting prospects with Junior and Senior grids of up to to 54 drivers from every continent.

Participants compete on strictly identical equipment provided by the CIK-FIA, thanks to OTK Kart Group for chassis and engines. Karts are allocated by draw. National federations are widely involved.

Since 2025, the Trophy has two categories: Academy Junior (12-14) and Academy Senior (14-17).

FIA KARTING ACADEMY TROPHY - JUNIOR -

Launched in 2010, the FIA Karting Academy Trophy – Junior will take place over three rounds in 2026. The competition is for drivers aged 12-14 and the series is determined by an accumulation of points earned across qualifying heats and finals.

1st EVENT
21–24 May 2026, Karting Genk (BEL)

2nd EVENT
2–5 July 2026, Circuito Internazionale Napoli – Sarno-Napoli (ITA)

3rd EVENT
8–11 October 2026, Leopard Circuit Viterbo (ITA)

Technical Specifications

- OTK single-make chassis
- Engine: 125cc 2-stroke OK-Junior, Vortex brand
- Liquid cooling
- No gearbox
- No clutch
- No starter
- No battery
- Minimum weight: 140 kg driver on board
- Tyres: Vega “Option”

Drivers’ race suits and gloves, and mechanics’ clothing, are provided free of charge by partner OMP Racing Force.

*FIA Karting Academy Trophy **Junior** winners*

2025	Oiva Vettenranta	(FIN)
2024	Gilles Herman	(BEL)

FIA KARTING ACADEMY TROPHY - SENIOR -

Created in 2025, the FIA Karting Academy Trophy – Senior is open to drivers aged 14-17 and is contested over three rounds. The series is determined by an accumulation of points earned across qualifying heats and finals.

1st EVENT
7–10 May 2026, Kartodromo Internacional Lucas Guerrero – Chiva-Valencia (ESP)

2nd EVENT
11–14 June 2026,Motorsportarena Mülsen (DEU)

3rd EVENT
30 July – 2 August 2026, Asum Ring – Kristianstad (SWE)

FIA Karting Academy Trophy Senior winners

2025	Yuzuki Sato	(JPN)

Technical Specifications

- OTK single-make chassis
- 125cc 2-stroke OK-N engine, Vortex brand
- Liquid cooling
- No gearbox
- No clutch
- No starter or battery
- Minimum weight: 155 kg driver on board
- Tyres: Maxxis MAO “Option”

Drivers’ race suits and gloves, and mechanics’ clothing, are provided free of charge by partner OMP Racing Force.

THE ARRIVE & DRIVE CATEGORIES

In 2026 Arrive and Drive expands to include continental championships which bring the more affordable, accessible and inclusive format closer to global communities. Three continental championships will take place in 2026 and act as qualifying championships for the 2026 FIA Karting Arrive and Drive World Cup

- Senior -

The Senior category is for drivers aged 15 and over. In a single-make format, all drivers receive strictly identical OTK Kart Group equipment, allocated by draw before each Competition.

Technical Specifications

- OTK single-make chassis
- 125cc 2-stroke OK-N engine, Vortex brand
- Liquid cooling
- No gearbox
- With clutch
- With starter and battery
- Minimum weight: 155 kg driver on board
- Tyres: Vega “Option”

- Junior -

The Junior category is for drivers aged 12-14. As in Senior, single-make equipment from OTK Kart Group is allocated by draw.

Technical Specifications

- OTK single-make chassis
- 125cc 2-stroke OK-Junior engine, Vortex brand
- Liquid cooling
- No gearbox
- With clutch
- With starter and battery
- Minimum weight: 140 kg driver on board
- Tyres: Vega “Option”

THE ARRIVE & DRIVE CHAMPIONSHIPS

THE ARRIVE & DRIVE SENIOR & JUNIOR CHAMPIONSHIP SENIOR & JUNIOR

The Arrive & Drive Senior & Junior Championship takes place on three continents.

European Arrive & Drive Championship

SINGLE EVENT
17–19 July 2026, Autodrom Slomczyn (POL)

Asia-Pacific Arrive & Drive Championship

SINGLE EVENT
11–13 September 2026,Circuit of Macao – Coloane, Macao SAR China (MAC)

South American Arrive & Drive Championship

SINGLE EVENT
2–4 October 2026, Kartodromo de Imperatriz (BRA)

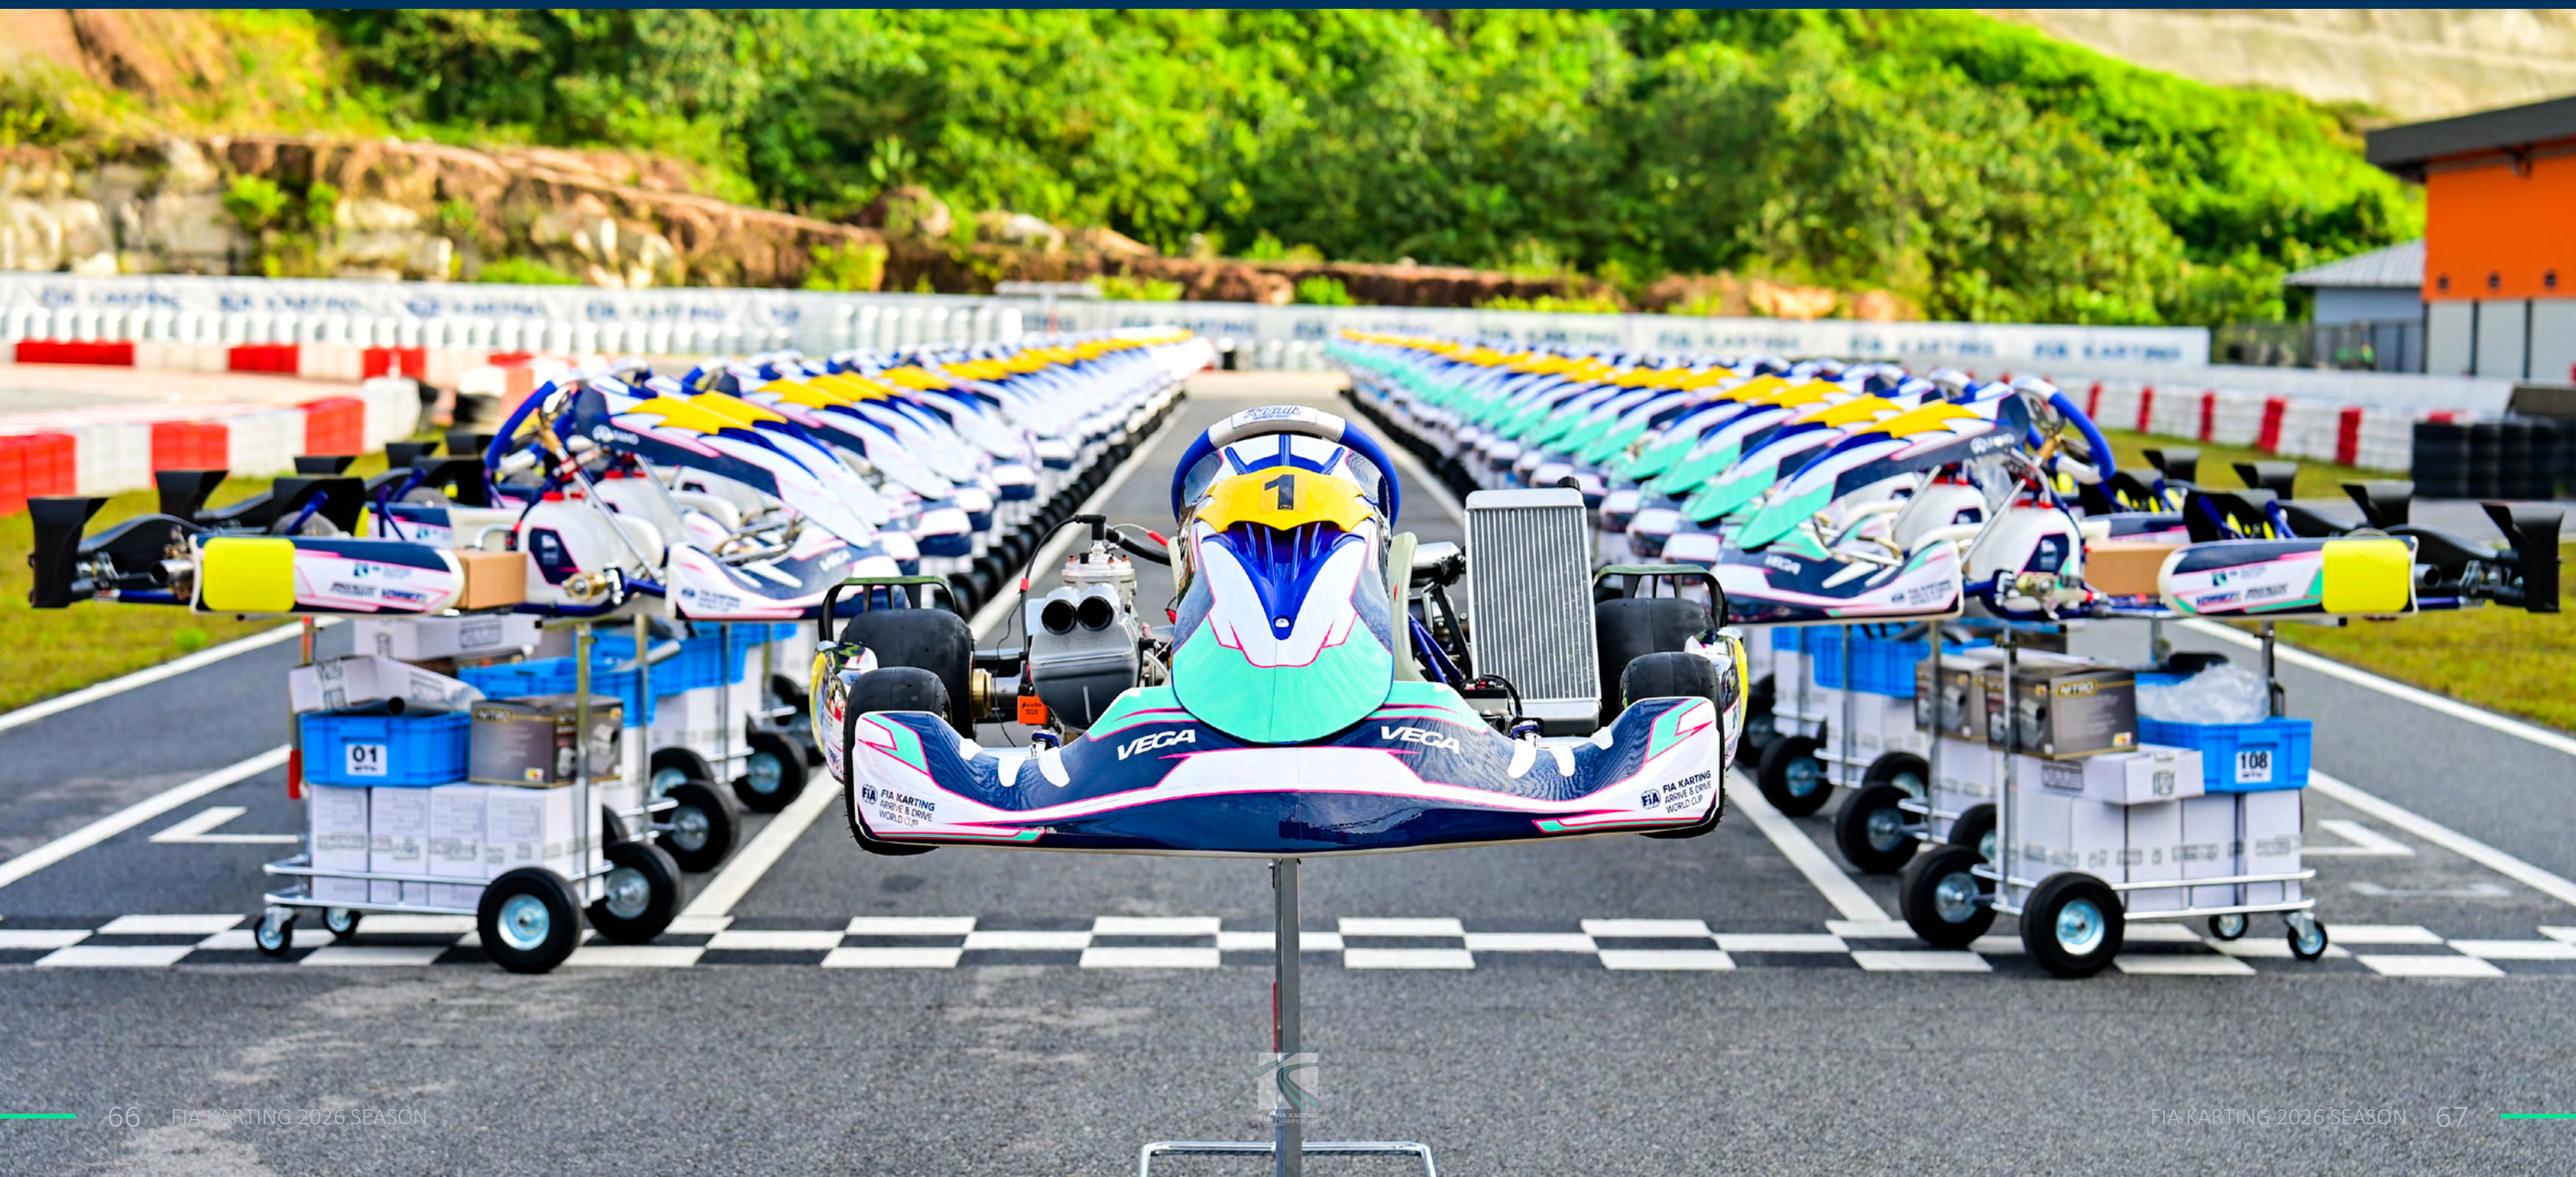

FIA KARTING ARRIVE & DRIVE WORLD CUP

The Arrive & Drive season reaches its pinnacle with the FIA Karting Arrive and Drive World Cup, first held in 2025 in Malaysia. In 2026 the best performing drivers from the Arrive and Drive continental championships compete at a single event for the title.

The FIA Karting Arrive and Drive World Cup will take place from 19 to 22 November 2026 at the LYL International Karting Circuit in Selangor, Kuala Lumpur.

FIA Karting Arrive & Drive World Cup winners

2025	Zach Tucker	(NZL)	Senior
2025	Troy Ferguson	(USA)	Junior

2026 PARTNERS

Tenders determine the official suppliers for all FIA Karting Competitions.

ETS Racing Fuels
Official fuel supplier for all categories

Dell'Orto
Official carburettor supplier for KZ and KZ2 categories

OMP Racing SpA
Official supplier of race suits and clothing for FIA Karting Academy Trophy competitors

Mondokart.com
Official partner of the three FIA Karting World Championships and the European Championships OK, OK-Junior, KZ and KZ2

Elto Racing srl
Official exhaust supplier for OK, OK-Junior and Academy categories

OTK Kart Group
Official chassis and engine supplier for the FIA Karting Academy Trophy and the Arrive & Drive category

MAXXIS
Official tyre supplier for OK, OK-Junior, OK-N, OK-N Junior and Academy Senior categories

LeCont
Official tyre supplier for KZ and KZ2 categories

VEGA
Official tyre supplier for the FIA Karting Academy Trophy Academy Junior
